Dear Mr Wilson

First Draft NDP Consultation

I am writing to confirm the response of the Society to the consultation on the first draft Neighbourhood Development Plan for Berkswell Parish. The Committee has not been able within the time available to consult its membership and the views expressed should be seen in that context.

1. The Society agrees with the Vision and Objectives
2. The Society agrees with the scope and content of the planning policies
3. The Society agrees with the designation as Local Green Space of the land at the recreation ground next to the church on Meeting House Lane and north of Lavender Hall Lane (the Hornets ground)
4. The Society agrees with the broad consultation that the parish council is conducting and trusts that the Council will carefully consider any detailed points raised by residents of Berkswell Parish to improve the first draft NDP.

We thank the parish council for seeking the views of the society and will continue to assist the council with the development of an NDP that reflects the views of residents.

Yours sincerely,
